Personal Statement

I recently graduated from Robert Gordon University, attaining First-Class Honours in BSc (Hons) Computing and Creative Design. Over 4 years, I have gained contemporary, practical skills across various multimedia and a dedicated work ethic. Friendly and reliable, my strong social skills enabled me to take initiative and communicate effectively in group projects at university, e.g. creating short films and websites, and in extracurricular roles e.g. helping organise and run large-scale events e.g. the RGU Hack, a student-led 24-hour marathon programming event as part of the Computing Society committee. Both the 2024 and 2025 hacks had over 200 attendees, requiring adaptability to support and cater for participants in a dynamic environment.

Education

BSc (Hons) Computing and Creative Design, First-Class Honours – Robert Gordon University, Sep 2021 – Jul 2025

Secondary Education - Mearns Academy**,** Sep 2015 – May 2021

Experience / Volunteering

Crow House Film Accelerator *March 2025 - Present*

- Involved in the development and production of a short film locally in Aberdeen, as part of the camera crew and as an extra.

RGU Computing Society *October 2023 – April 2025*

- Representing the creative disciplines (*Computing and Creative Design, Digital Media*) on the committee
- Contributions include organising, running and creating promotional graphics for society events
- Required strong communication and organisational skills
- Helped organise and run the 24-hour 2024 RGU Hack, featuring programming challenges and networking with industry sponsors.

Class Representative *October 2023 – May 2025*

- Elected as class representative for my course and both Digital Media routes.
- This role's duties involve building a rapport with those on my course and similar, keeping them informed, engaged and relaying their feedback to staff in liaison meetings.
- Class Reps are occasionally included in decision-making regarding changes to modules going forwards – we need to be dependable and trustworthy.
